

# PRADYOTH PATUVARDHANAM

:{

**Frontend Developer,**

System Design

UX/UI

}

I'm a frontend developer with a strong focus on **storytelling** and **UI/UX**, and a love for music, philosophy, poetry, and video games.

I've been **coding** and **programming** since 2020, but delved into **web development** in late 2023. Since then, I've built numerous visually appealing **projects**, each tailored to **niche use cases**.
